Verde Valley Chapter

James Crowley, RLS
Stan Dickey, RLS

White Mtn. Chapter

Harold Baldwin, RLS
Dan Muth, RLS

Yavapai Chapter

Terry Wilson, RLS
Diana Garcia, RLS

Geospatial Chapter

Clara Walker-Earnest
Dave Minkel

Members of APLS:

Due to the recent and reoccurring concerns with the practice of surveying in the construction fields it has been determined that we should take a hard look at standards for construction surveying.

Along with this letter you will find Sections from the NSPS Model Standards.

These include Section D: Layout and Section E: Topographic Surveys.

As technology moves forward with Machine Controlled Systems and digital terrain modeling it is imperative that we stay on top of our involvement with Construction Surveying. This is an important part of our profession and our interests should be protected.

Please feel free to address your concerns to me though my email, mikefondren@yahoo.com, or even give me call at 928-692-0347.

My goal is to present these standards at the general membership meeting next January. The whole membership needs to be informed here and act now.

I would ask to review and concenter the adoption of these NSPS standards by APLS.

Thank you

Michael Fondren (digitally signed)
