# APLS FALL SEMINAR 2023

October 27th

## Quiet Title Actions in Arizona

8:30 – 9:30 AM

**Speaker: Attorney Francis “Buzz” Slavin**

A presentation on the legal requirements to quiet title to a part of a neighbor’s land or to establish a prescriptive easement for ingress and egress across a neighbor’s land and the role of the surveyor before and during trial.

## The Three-Mile Method of Section Subdivision

9:30 – 11:00 AM

**Speaker: James “Mike” Hart, RLS**

Mostly on Tribal Lands (but maybe not always), the Three-Mile Method of Section Subdivision was used on numerous official, approved surveys conducted by the GLO. If you subdivide the section using conventional procedures, you will be wrong. Researching the Official Record and recognizing the tell-tale signs of the Three-Mile Method will be discussed, as well as working behind that procedure in lost-corner situations. This presentation is suited for all experience levels.

## Subdivision of Sections

11:00 – 12:30 PM

**Speaker: Jim Crume, PLS, MS, CFedS**

I will be covering Parenthetical distances on plats. Parenthetical distances can be a valuable tool for land surveyors. They can be used to calculate the areas of sections and subdivisions, and to establish sixteenth-section corners and control the subdivision of the sections. However, it is important to remember that the parenthetical distances are not official measurements until they have been actually run and monumented.

## AZ Board of Technical Registration Update

1:30 – 2:30 PM

**Speakers: Kurt Winter, BTR Deputy Director and Julie Pham, BTR Licensing Manager**

BTR Deputy Director, Kurt Winter and Licensing Manager, Julie Pham will discuss the different pathways to licensure in Arizona.

## 5 Rules of Construction

3:00 – 4:30 PM

**Speaker: Dane Courville, PLS**

The lesson will be a discussion of the hierarchy and precedence of the rules of construction. Will focus on 1.) intent, 2.) original location, 3.) monuments, 4.) measurements, and 5.) area. We will dive deep on the purpose and each aspect of the rules of construction hierarchy.

## FALL SEMINAR

OCTOBER 27, 2023 - PHOENIX, AZ
